

Name	Falstaff	A
Typology	Armchair	
Designer	Stefan Diez	

Description	<p>The Falstaff lounge chair is conceived as a three-dimensional hammock, crafted to envelop and support the body from multiple angles. It offers a sense of coziness and versatility, encouraging a relaxed and playful approach to seating. Its unique construction allows you to nestle in comfortably, creating an inviting and dynamic lounging experience. Inspired by this concept, the seat is fixed in an unconventional way to a metal tubular frame, blending opulence with functionality. The chair reflects the essence of simplicity, stripping away the unnecessary and focusing on the core elements that provide both aesthetic appeal and exceptional comfort.</p>
