

Name	H.E.A. 310	A
Typology	Stool	
Designer	Christophe de la Fontaine	

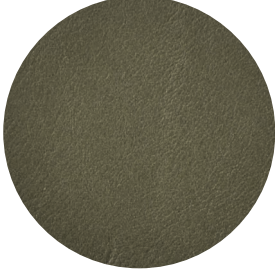

Description	Inspired by the world's great metropolises and their ability to constantly reinvent themselves, the H.E.A. 310 stool takes its form and its name from the industrial T-beam, a simple yet versatile shape. The manufacturing process, combined with saddle-like leather upholstery, transforms it into a dynamic and comfortable stool with a unique look.
