

Name	Pinstripe	A
Typology	Low table	
Designer	Christian Haas	

Description The collection Pinstripe consists of four individual side tables. The final shape is characterized by folding a white lined paper two times: One regular and one random fold. The result of this exercise are unexpected shapes that enter into dialogue with the surroundings. The tables are concrete and abstract, silent and delicate, unknown and spontaneous.

Name Pinstripe B

Material HPL, Powder-coated textured steel
